

# E-Touch IV250

**IVTS**  
Innovative Solutions

## IV250 Solution

Offers a new type of multiproduct sale point installation uses up less space and offers a higher variety of products

## Revolutionary Conveyor

Conveyor system makes sizing and configuration simpler than ever.

## Suggested Inventory

- Fragile items
- Tools parts
- Stationery
- PPE's
- Batteries
- Tools
- IT Consumables

The IV250 offers an alternative way of vending to the spiral machines. Many solutions cannot physically deal with products such as latex gloves or ear defenders. These products are NO challenge for this unit. The large capacity elevator bin ensures that the products are not dropped.

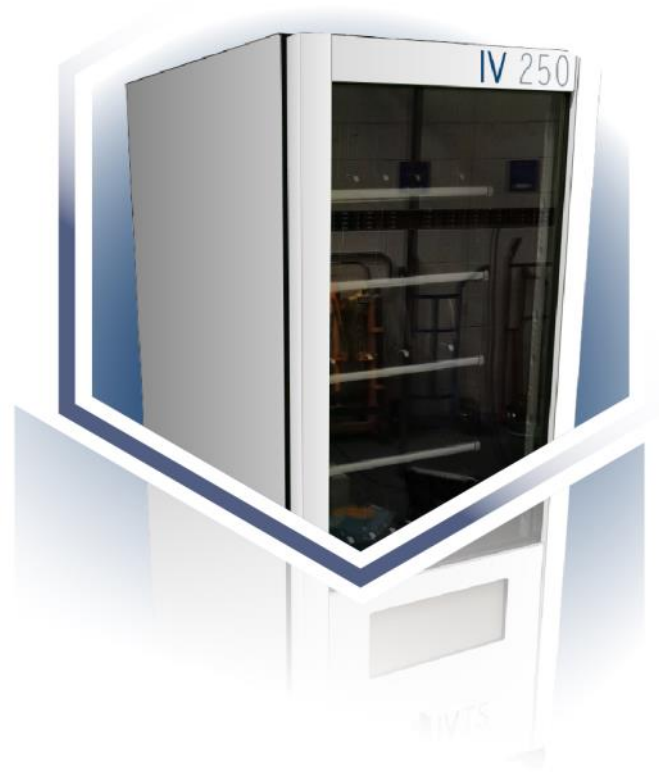

The IV250 uses a conveyor type delivery channel rather than a spiral. This means you will never have the wrong spiral again.

Features & Benefits
